eWiSACWIS Release 1.6 Notes

Activity Notes

4139	Cut/Copy and Paste Into Case Note	When pasting text in a case note, logic has been added to replace the extended dash with a regular dash instead of a question mark. In addition, Apostrophe's entered into the PS Report Narrative prefills in the PS Report with an apostrophe instead of a question mark.

Assessment

2742	All Assessment Narrative Fields	The number of characters allowed in the narrative fields for the IA-PC, IA-Secondary and IA-Narrative have been increased to 50,000 characters so that workers can enter as much text as possible.

Assessment

3272	Ntfy Mndtd Rptr cannot handle more than one PS Rpt	A unique letter can now be created for each Mandated Reporter when there are multiple PS Reports linked to an Assessment. Also, when the address of the Mandated Reporter has been changed on that reporter's person manangement record, the changes are now displayed on the letter.

Assessment

4121	Validation edits on IAPC	A checkbox has been added to the Initial Assessment - Primary Caregivers page, called 'IA-PC Completed'. Checking this checkbox will run the validation for all tabs in the IA-PC, making sure all required fields have been completed. Any changes made to the IA-PC can be saved prior to checking the checkbox, but the user cannot send for approval until the new checkbox is checked.

eWiSACWIS Release 1.6 Notes

| 4422 | Don't throw Discharge Rqu'd edit for TPR'd child | Case closure batch no longer requires a Final Discharge for TPR'd children in the case closure edit. |

eWiSACWIS Release 1.6 Notes

Close Case & Adoption Decree

4808	b-sm0502-case-adopt	b-sm0502-case-adopt no longer fails.

Collect/Determine Eligibility

3467	MMIS Interface	The MMIS batch has been modified to replace hyphensand apostrophes in last name & first name fields with a space. The only characters the system will allow you to enter in the name fields when you create a person on-line are hyphen & apostrophe, so these are the only characters removed.

Collect/Determine Eligibility

3508	Adoption Eligibility issues	An Adoption Eligibility record will now be automatically created when an AA Agreement is created in the system and there is not already an Adoption Eligibility record existing for the child.

Collect/Determine Eligibility

3523	conversion loaders	The Conversion Loader for Eligibility has been modified to create an assignment to all the appropriate Eligibility workers as a result of Maximus having 5 Eligibility Units.

Collect/Determine Eligibility

3759	Adoption Eligibility	No longer gives a message that you must enter an effective date when there is one already there.

eWiSACWIS Release 1.6 Notes

Collect/Determine Eligibility

3898	Eligibility page- date edit should be removed	If a redetermination effective date that is on (or after) the IV-E Removal Date page and that is prior to the original placement begin date, no longer receive the error message on effective date.

Collect/Determine Eligibility

4025	Eligibility Status	Changed the logic for # 9 on Initial Determination Tab and # 3 on Redet. Tab so that answering 'N' to question makes the child Ineligible.

Collect/Determine Eligibility

4428	cannot create new elig if other voided elig exists	Able to create new eligibility by checking the "This Placement is the Result of a Transfer" checkbox if all other eligibility and redetermination records are ended or voided.

CPS Reports

3780	Screened Out Referrals on New Cases	A case will now be automatically closed when it is created from a screened out PS Report or Service Intake for a family not previously known to the system.

eWiSACWIS Release 1.6 Notes

CPS Reports

4308	Pending PS Reports	PS Reports that have been pending for 22 hours will now appear under a new expando on the desktop under Intakes, called 'Overdue Intakes' for all workers with a job class that is associated with the 'Intake Supervisors' and 'Intake Assessment Supervisor' statewide reporting groups.

And when they are pending for more than 23 hours, they will display under the 'Overdue Intakes' expando for all supervisors of Intake Supervisors or Initial Assessment Supervisors.

The overdue PS Reports will display under the 'My Intakes', 'All Intakes' and the new 'Overdue Intakes' expandos as appropriate for the users with proper security.

CPS Reports

4310	Linking Intakes to Existing Cases	When linking a PS Report or Service Intake to an existing case, all cases will now be listed only once instead of multiple times.

CPS Reports

4508	Intake	The 'Child Welfare Report' option from the Assessment page will no longer be available. If there was one already created, the option will be available and the users will be able to access it. In addition, the Screen-In and Screen-Out reasons for PS Reports have been modified to be consistent with statuatory and federal requirements.

Document Plans

| 3011 | PP Placement prefilling Error | The Permanency Plan will now display placements correctly if they have been closed for reasons of TPR, Birthday Batch or Parent Agency Change. The Begin Date now comes from the 1st placement that was closed and all other data (end date, end reason, etc.) will come from the 2nd placement. |

Document Plans

| 4177 | CPE tickler for Sheboygan County | The Case Progress Evaluation Tickler has been activated and enabled for Sheboygan County. |

Document Plans

| 4341 | Case Plan | Workers can no longer copy detail, insert, update, delete, and approve a pending case plan from search. |

| 4523 | Perm Plan ticklers created for Vol. Kinship | Perm Plan review due, and hearing ticklers are no longer being created for Kinship - Voluntary Out of Home Placement. |

Foster Care/Out of Home Placements

| 4539 | sm10a21-median-length-of-stay | Modifications have been made to remove duplicates. The dt_rmvl is now being used to calculate the median length of stay instead of the episode.dt_bgn. |

Foster Care/Out of Home Placements

| 4660 | Template won't save - save button inactive | After launching the template and closing, the Save button is now active. |

eWiSACWIS Release 1.6 Notes

Home Provider

| 2263 | Restricting access to AFA and FFA's | The AFA and FFA will be restricted and only workers having an assignment to the provider and their supervisor will have access to launch the templates. |

Home Provider

| 4688 | Home provider inquiry and Home provider | An Inquiry Type of 'Relative' has been added to the Home Inquiry page and a Provider Type of 'Relative' was also added to the Home Provider page to distinguish a non-pay relative provider from a relative kinship provider. |

Home Provider

| 5224 | PM02a Birthday Batch | The new school district code field on the Out of Home Placement page is now being copied over to the new placement created by the Birthday Batch. |

Issue/Reconcile Checks

| 871 | Financial reports FM0201, FM0202 | The Pending Check Report has been modified to add the WiSACWIS Payee ID, WiSACWIS Case ID, and the WiSACWIS Person ID. |
| | | The Pre-audit Report has been modified to add the WiSACWIS Payee ID, County Payee ID and the Target pop. |

Legal Consult

| 4311 | tying legal status to legal action | The Legal Statuses will now be grouped with the correct Legal Action on the outliner to assist end-users. |

eWiSACWIS Release 1.6 Notes

Legal Consult

4692	Legal status page add new field and ref values	Two checkboxes have been added to the Legal Status page to document key court findings for IV-E Eligibility. The checkboxes will be called: 1. CTW (continued placement of the child in his or her home would be contrary to the welfare of the child) Finding Made 2. REPR (reasonable efforts to prevent the removal of the child from the home was made) Finding Made

Licensing Home Providers

4707	FH/TFH License Service Type	The system now allows both Treatment Foster Home and Foster Home service types on a Treatment Foster Home license. In addition, the Effective To and Effective From date fields on the Basic Tab of the License window will no longer have system generated default dates; these date fields will default to 00/00/0000.

Maintain Case

4345	Searching Unknown, Unknown	Insert case participant search now functions the same as Intake Search.

Maintain Case

4363	Intake cannot be delinked	This will happen when the case has more then one PS report and all except one are part of an investigation. Now able to delink the PS report without any errors.

eWiSACWIS Release 1.6 Notes

Maintain Case

4564	TPR Copy, Case Adopt and Archive Case	The following batch programs have been updated so that whenever a document is copied the old and new doc ID's (c/s doc ID and the eWiSACWIS doc ID) are used. The batch programs that have been updated: b-sm04a-tpr-copy b-sm0502-case-adopt.cbl b-cm16-archive-case

Maintain Case

5027	Maintain Case from Search	The Maintain Case page is now displayed properly when accessing the page from search; previously, the top of the window was not being displayed.

Maintain Case

5220	SM04a TPR Copy	The new fields added to the Medical Mental Health, the Out of Home Placement and Legal Status pages are now being copied over to the new Pre-Adoptive Case by the TPR copy batch.

Manage Trust Accounts

4738	fm0706-kids-daily-extract	The log file for the KIDS daily extract is now a standard file name: fm0706-b-mmddyyyyhhmm.log

NCANDS

4708	NCANDS Report	The NCANDS Report now extracts and encrypts the Federal data required for reporting.

eWiSACWIS Release 1.6 Notes

Office Automation

3746	Info for foster Parent B doc does not open	Info for Foster Parent B document will now open. This has been Fixed with OCX version 1,8,0,21.

Office Automation

4175	Kenosha County - old Perm plans don't open	Kenosha County workers can view historic and ongoing Perm Plans from the application.

Office Automation

4187	OCX	The OCX has changed in that the drive in which the eWiSACWIS directory is created is now a registry setting that can be set on the worker's workstation. By default it is created on the same drive the Windows/WINNTdirectory is located on.

Office Automation

4188	Document Spell Check	Spell Check functions properly and no longer locks up while checking documents.

Office Automation

4189	Document Spell Check	Spell check no longer runs slow when checking the Final FA document.

Office Automation

4207	OCX and MS Word setting	Changes have been made to the eWiSACWIS3.dot file so that the auto text, auto correct and autoformat settings are reset to the user's setting when a document in eWiSACWIS is opened and closed.

eWiSACWIS Release 1.6 Notes

Office Automation

4398	RTF error in conjunction with printing	RTF error no longer occurs after opening, printing and clicking on "Close all and return to eWiSACWIS".

Office Automation

4616	Temp Documents in c:/ewisacwis/work	Documents will now only remain on the eWiSACWIS/Work folder when there is a problem with the application or network and the worker loses their connection so that the documents can be recovered. The system will automatically remove files from that directory if it has been in there for more than 21 days. Previously all documents were being saved to that folder and were not getting removed appropriately causing numerous files to be saved to that directory.

If an exception occurs when saving the document to the database, then more detailed exception messages will be displayed. Also, if the worker presses the Close button when changes have been made to a page that has office automation functionality, then the following message will be displayed: "Save changes (including documents) before closing page?".

Office Automation

4796	Office Automation IA Secondary Caregiver	The IA Secondary Caregiver now displays correctly.
